PROFESSIONAL SUMMARY

Results-driven professional with a background in strategic digital initiatives, now leveraging strong analytical and creative problem-solving skills to architect engaging and responsive web applications. Proficient in modern front-end development, specializing in React.js to deliver intuitive user experiences and robust solutions. Eager to apply expertise in building high-performance, scalable web interfaces.

TECHNICAL SKILLS

Languages:

Backend & Databases: ,

Frameworks & Tools: , ,

EXPERIENCE

Borcelle Studio

Fauget Studio

Studio Shodwe

KEY PROJECTS

Technologies:

- Developed a full-stack interactive dashboard application using React.js for the front-end, enabling real-time data visualization and user interaction.
- Engineered reusable React components and managed application state efficiently using Context API and React Hooks.
- Integrated with RESTful APIs to fetch and display dynamic data, ensuring a responsive and intuitive user experience across various data sets.
- Implemented robust error handling and loading states to enhance user experience and application reliability.

EDUCATION

Wardiere University

Master of Business Management
